

ADAPTABLE SECURITY

Provides You With Affordable
Information Security Services To Protect
Your Business And Your Customers.

Protect Your Information Protect Your Business

Your business stores sensitive information. You need to comply with complex government regulations like HIPPA and COPPA. Failure to do so could result in fines or lawsuits that could devastate your business.

Luckily, Adaptable Security is here to help. Adaptable is a 501(c)(3) non-profit organization dedicated to providing affordable information security services to small to medium sized businesses.

Why Adaptable?

If you take in and store sensitive information like a person's address, medical records, credit card numbers or insurance information, you are required under HIPPA to safely store that information so that it cannot be stolen or viewed by unauthorized personnel.

You must secure your physical environment, have appropriate process to prevent accidental disclosure, and securely store information, whether on computers or onsite files. Adaptable has the security experience, intel, and experts that will ensure you are up to the highest level of standards for your customers.

Data Theft Is a Growing Threat

"SMBs are also the target of 43% of cyber attacks"

"60% of small companies go out of business within six months of a cyber attack"

—Matt Mansfield, *"CYBER SECURITY STATISTICS – Numbers Small Businesses Need to Know,"*

Data theft has affected millions of individuals and hundreds of businesses in 2016, costing an estimated \$100 Billion dollars. You can prevent yourself from becoming a victim. Visit us today and sleep better knowing your information, your customers, and your business are protected.
